To Whom It May Concern:

R. H. Campbell Systems, LLC has been an excellent company to use for their disinfecting services. Bob and his staff have performed quality work on cleaning and sterilizing our shopping carts, hand baskets, and door handles. They are very efficient and are willing to work around your schedule as needed. I would highly recommend them to any business that cares about the health and cleanliness of their customers and employees.

Sincerely,

Stuart Presley

General Manager
